## Frontier Collection

You'll find two distinct hand-scraped looks in the Bruce Frontier Collection. Our hickory hardwood series features a rustic scrape. The alternative to the rustic scrape is a softer, more subtle hand-scrape, offered in birch. All the flooring options in this collection have an engineered wood structure.

### Details

**Hickory** – Available in six popular colors. Three standard colors and three colors that have been enhanced with a color brushing treatment. Plank size: 5" wide with a 3/8" thickness with random length boards up to 4 feet long.

**Birch** – These floors feature a softer grain and lighter hand-scraping effect.

Plank size: 5" wide with a 1/2" thickness with random length boards up to 4 feet long.

## Unique Fact

The color brushing treatment in the hickory line accentuates the grain of the wood and adds a unique color dimension that draws attention to the hand-sculpted scraping of the planks.

---

**Species:** Birch and Hickory

**Width:** 5"

**Thickness:** 1/2"

**Edge Detail:** Micro-beveled edges and ends

**Construction:** Engineered

**Installation:** Float, Glue, Staple  
Below / On / Above Ground Level

**Warranty:** 25-Year Residential

Wood is a natural material containing distinctive differences in color and grain configurations. It is these differences, caused by nature, that create the warmth, beauty and originality of each hardwood floor. The printed room scenes and color swatches in this brochure are intended as a visual guide, not as an actual color or grain pattern representation of the flooring itself.
